Mr. Timothy MacArthur , attorney for Munro Township explained what the special public hearing was about. The township was holding a meeting for the residents that sent out petitions asking for residents to pay for improvements to Silver Strand road from Van Road to Ingleside Road. Dr. Thomas Gaunt and his wife, Anne said they would have liked to be included in the special assessment district, however no one ever contacted them. Their options are to get together with the other 13-15 property owners and work with the County Road Commission and pay for the extra work that the contractor does by themselves.

Brent Shank, Manager of the Cheboygan County Road Commission reported that Silver Strand Road would have Afton Stone spread, help drainage, grade and compact the gravel.
